

# ECO Badge

supporting eco-conscious communities

## What is Eco Badge?

Eco Badge is an accreditation platform which scores food establishments based on environmentally friendly factors. We reach out to local food restaurants and provide them with a Score and Tier based on how eco-conscious they are, attracting healthy eating focused audiences.

## Directory “Must-Haves”

We designed our database so that finding the best restaurant for you couldn't be easier! Simply select your required “must-haves” at the directory page to filter our results!

## How we work: Our MVP

Eco Badge evaluates businesses on their eco friendliness and creates a profile of their details: cuisines, opening times and a PDF of the business menu. This profile can be accessed via the business profile and directory pages of our website, allowing a customer reliable options and insight for eco consciousness food businesses in their area.

## Our Tiers

Bronze

Silver

Gold

Platinum
