Minutes

Agenda Item: Addressing the Backlog and what we need to prioritise

Discussion: We discussed what tasks need to be prioritised in preparation for the Interim Report in January.

Conclusions: We concluded that we needed to prioritise the design and plans for the website and the database in order to show off as much of our vision as possible before we start to develop our actual project.

Action items:

- Create some designs for the Website's UI and any graphical features
- Test these with potential users to see which designs are most liked by the users
- Create some plans for how the database should work.
