# Team Meeting

## Attendance

---

Meeting called by: Josh Fruin

Where the meeting will be held: On Discord

Attendees: Alex Cleverly, Callum Organ, Josh Fruin, Thomas Mahoney

## Minutes

---

Agenda Item: Finishing what we need to ensure that this is a minimum viable product by the deadline and discussing what tasks each person is assigned for the poster

Discussion: What needs to be completed by the final deadlines and who needs to do them. We prioritised what is the most important to complete and what would be a good feature but not needed. We looked at the progress of the site and what needs to be added.

Conclusions: We divided the final tasks between us for who we think would be best for each role.

Logins might have to be primitive example versions to show that they can function in practice

If we have time maybe add in an editing feature
